

Twisted-pair Signal Transmission

NVPT-111VTP-II

Features

- Passive device
- Can operate as a transmitter or a receiver
- No power supply needed

Specifications	Description
Video Input/Output	1 x BNC, 1.0 Vp-p, 75 Ohm
Bandwidth	6 MHz
Color Signal Transmission Distance	Up to 400 m (with passive receiver), Up to 1200 m (with active receiver NVPT-A111VRH)
B/W Signal Transmission Distance	Up to 600 m (with passive receiver), Up to 1200 m (with active receiver NVPT-A111VRH)
Connector	Clamp connector
Operating Temperature	0°C ~ 55°C
Dimensions (mm)	19 (L) x 16 (W) x 203 (H) with 15 cm coaxial cable
Weight	Transmitter: 25 g, Receiver: 25 g
Case	ABS material, black
Cable Recommended	CAT 5 UTP Cable (Ø=0.5 mm)
